Pyeng Yang. Korea
Jan. 20. 1911.

My Dear Francis:

We are having a long cold snowy winter. The weather is at Zero or below most of the time most is freezing too. In every thing else so there is no doubt any amount of suffering among the poor. I am cold as any dog to sit down close to the stove to get warm & write your letter. My! but these are full busy days. It is this and that & there seems to be so little accomplished more than we think. Will has finished his teaching & is getting his work all finished up. One week from today they expect to leave. Will sail from

Nagasaki Japan by the German Lloyd Steamer. Feb. 1. They spent 2 days in India until March 12. when they sail from Columbo for Egypt.
They are all ready expecting the parking. Will have his tickets Thanking Cheeks & every thing is arranged We want to get the study all packed away before the girls & then I will finish up as I can. I am seeing & getting along very well considering the many interruptions. The Missions have had three different receptions for us and given us some very pretty things. We certainly shall be to leave them. It seems like leaving our children. This

Morning about Dorcas prayers. Our Churches Bible women was in the Council and finish her prayer for evening. I dread when Will & Wilbur leave. I don't see how I can stay here but I will have so much to do that I can't have time to get lonesome.
The little girls & I are to sail from Kobe March 18 by the Blair ship "Korea" We have the big family Cabin with four berths in it which will be very nice to be together. I am looking forward for a restful trip & expect I will be so well & fat that the people will wonder that we need a furlough, when we

arrive in the U. S.
The Men's Mills Bible class
has just closed.
The Bible Institute classes
next week, then the
local Bible classes begin
every where Feb. 1. The
Rodeo over year. My teaching
is about over, I am closing
up my work & will turn
it over to Miss Bert & miss
Brooks. Reports come in
almost every day from
the Country workers & Bible
classes. They were never
been so well attended & so
much interest manifested.
We certainly have to be busy
our work. Will try &
write again before we
start.

Lots of love
Sallie

Redlands. Cal. April 1.
1911

My Dear Jennie:

We have had such a pleasant time at each place. We left Los Angeles Monday & came to Riverside & was there until Wednesday afternoon, when we came to Redlands. We can here Tuesday evening & expect to get to Cincinnati Sunday at noon. We will come on to Columbus just as soon as we can that afternoon. I can't tell what road we will come in on. You will know if the Southern Pacific has a R.R. to come in there. If I can get a chair I will write out to Johnstown that night but

Yesterday I went with Uncle and Mary driving

Pyeng yang. Korea.
Feb. 5: 1906.

My Dear Jamie:

I received your letter of Jan. 6. was so glad to hear from you. I am hastily writing to tell you that I have changed my plans & will sail a month sooner than I had expected. My plan now is to leave here Feb. 17. & sail on the Mongolia from Kobe Feb. 19. just two weeks from today. Will & Wilbur left Jan. 27. are now on the Sea some place near Hong Kong. Before they left we put the house away which kept up the house & as soon as they were gone I continued to put things away. To live is this sick of affairs are a month. I do not care to & it is most awful lonesome here with out them both. We telegraphed to Kobe & had my passage changed. I am sewing what I can & will let the rest go. Which means the children must have any summer clothing made up, after all may be it is best. Will you engage a woman to sew in april. I think I could get enough done in a week or two. I will arrive in San Francisco about March 1. Will spend a little while in Cal. & then come East

to Columbus. I must go to Chicago at all rates I have to go that way. I will telegraph when I get to San Francisco. I am well & getting on well my cuts very well. If it wasent for these good Koreans I never could do it. I expect I will wish for them many times. I must close & relieve for I have a big weeks work before me.

Lots & lots of love,

Sallie

S. S. MONGOLIA On the Pacific
about 18 hours from
San Francisco March 2.

My Dear Sister:

We are steaming away at a good rate. This is a fine ship in every way except the gambling and that is a disgrace to such a beautiful ship. We have had a pleasant voyage almost all the way was feeling mean a few days. Received your letter of Jan 16. at Yokohama it followed me and I got it after we had left the harbor. So it was among the very last mail. Up to Honolulu there were only 499 passengers but at Honolulu 216 came on. Many tourists left Precipitately because of the Cholera in Honolulu

We were so disappointed because we didn't get to go on shore. They wouldn't let one passenger leave the boat neither would they let any one come on the ship only those who had been examined. Six days ago one of two cases have broken out on the ship so I guess we are safe to land tomorrow. Will reach San Francisco about noon or after. Have my packing about done & can soon be ready to go on shore. Jean is helping Dr. Dower to help me through the Customs & get mailed for Berkeley. Jean not sure how long I will stay. I am going to see about my ticket before I go out to Berkeley and find how much I can get, and how long I can stop at Redlands

Riverside and Los Angeles
I will find out what it
will cost from Chicago
Chicago & St Louis. I
will write you a telegram
from Chicago or St Louis so
you will know just when to
expect us. We have had a very
pleasant trip not over
very nice parts but will
feel good to get on land
once more. We are all very
well & the children have had
good times and are very
good sailors.
I will write again when
I get to Frisco, would send
a telegram but it costs so
much. 50 cts is the lowest
rate and as I feel
this is a slow mail boat
it will go right off & as a
friendly agent will get it

Lovely Sunday is
And no more meals to
meet again. All seems
as like a dream.
Shall reach Staunton
by the last of the month of next
before. I will write
every few days & letters
from my place.
Lots of love,
Dallie

Los Angeles. Cal.

My Dear Sister

I think I sent a letter from Berkeley. If I did not I am sorry but I have just been kept busy at this and that. Had such a nice visit with Gail and Andrew will tell you all about it when I see you. Monday P.M. we left & came down to Los Angeles. Myrtle McGill & Mrs. Plummer met us at the depot we are staying with Mrs. Plummer. Lulu & and Esther are at Mrs. Thompsons. they have a young girl who is not in school this year. and she is making our stay so pleasant for the children. I am not feeling well for a day or two after my visit but I am all right now. You are expecting to be moved soon. We are expecting to leave here Monday for Riverside will be there until Wednesday P.M. then go on to Redlands

Then we have three Tuesday night Meet. &
and Next to reach Cincinnati Sunday
at Noon. I will come on C. Columbus
Mail day if I can and am sure I can
But When we get C. Columbus I must
know what to do, if Daddy Rests three days
stay all night then I could come out on
the morning train. If I had only thought
to give you one of these addresses you could
have written time, and told me. Any way
there will be some way I feel sure.
I will try & send you a telegram as near
Ohio and from Columbus when I get there.
We are having lovely time and very cool is
in Kind but will be glad when We reach our
destination and can settle down.
Sam is a cold house & so chilly I must find
a fire. California is Paradise flowers and trees
the same Shirts but cold when he don't.
The flowers are beautiful. Cathy Likes
Cincinnati but Connie & Flowers.
Today we go out to See Mrs. M. to Lunch She
has invited all who are invited to come
there for this afternoon. Tomorrow we go to
Pasadena to the Fair. So sight see.
Hoping to See you Soon Lovingly, Dallie

My Dear Sister and my
Dear friends.

I just arrived here
at the home of Bro. Ford,
and it is 5 o'clock.
The day has been so lovely
and I had a nice trip.
Had a very pleasant visit
at Bunyan, took the
1:21 train and arrived at
the Union Depot at
8:25. Mr. & Mrs. Mills
were waiting at the
depot for me. They own
me a warm welcome
& we went home. Church

when we get there but
we heard a part of his
address, I spoke to
Mr. Speer and also
met Rev Fox a class
mate of Wills. I was
entertained at his home
when we were here
before. I have such a
lovely room and by my
self. It is their only
daughter's room who
has recently been
married. It looks as if
she had just gone out
and left it. There are
so many pictures and
girlish things around.

July 6. 1911,

My Dear Annie:

For some reason I
5:28 Tuesday, found the
house Jam Fit Dr. so it
the weather was Sunday
terrible, We ate supper
at your delightful home.
Meant to have written
before it and all of
your kindness, but I
am not much on writing
Sunday too. Will and Wilbur
Shot out for a run
down Upstate York.
We girls & Sadie for
the first time in the
writing mood & time

for we could hear Hans' feet & the upstairs. We took our dinner at an eating house but had our other meals here. To day there a woman & man taking up the matting in the four bedrooms which looks as if it had been there like mine & the first lot down. The beds are quite clean & so are the pillows. The room is very well furnished & in quite good Condition They got the coal, here Cooking utensils & a few dishes. I am hoping

they will get me a pair here
cheaper for the bedrooms
The dining room + sitting
room dark all the time
& there are no trees
and the sun is quite
clear now, when it
is cleared it will be
much more cheerful
& we will feel more Comfortable
It is said to be one of the
best Cottages here. It
cost a Convicts Cottage
& will be easy to do the
work, There is a basement
where we can do our
laundry, Our neighbor
offered me a washing
machine this morning
She seems such a kind

old lady, we are very near the Univ and College & only a few minutes walk from the Conservatorium, Dr will send you a program for the season & then you can select your time for coming. We can entertain two people at one time, as there is a folding bed in the living room and a folding bed in the basement and one C.C. in could crowd up and we can take our dinners at a boarding house if we want to. & then

sulphur and treacle
here, for Hannah succeed
in getting a piano for her
husband - & he'll treat
me kind as long as
Cousin Jo lives, I want to
go to Saltburn and see
about getting a sewing
machine and could
manage one day if it hadn't
been for Clarinda's
bad throat. I am pretty
well apart from waiting for the
Cramps to come on
Sunset dinner.
Had a glass milk sour
& some made butter
milk.
Fri. Noon Just had dinner
Weather stays as boisterous
this dinner. Sat the dinner

Dinkle's sleeper. We are going to
have a P.M. I dread it but just
has to be done. I washed this morning
but don't intend to iron today. This
pen seems like Ada I just hear
some one practicing voice. Pianos are
very or some thing all the time.
I just will get this letter fixed up
+ try to use it before we lose it. I guess
it was my overdue voice While this lot must
for it. I'm sure sorry that I can't tell
Grant Clara will write again soon

July 11. 1911.

My Dear Sister:

This is a fine cool morning. I am up at five to iron, got up yesterday morning at five & got the ironing all done about nine, this I am so glad is a horse but I am not and I fear I can never keep it up at this pace. I succeed in getting a woman to work and iron. We will be able to get on very well, we are real cozy in this little cottage and every thing is handy and each one has to do their part, You have rented a piano & the children will begin lessons at once. Otinelle will review Latin, & take one hour a day in Bookkeeping Wilbur will take one hour in

English and all home in Bookkeeping keeping
with the Swimming + rowing + other things I
must have any time to day.
Frank succeeded in getting a sewing machine
yet. The agent at Balsam askes 26 dollars
for a hand machine. I am sorry now that I
did not look after it at Winnipeg + bring
one with me. I think now I will rent one until
Carpet are. I have attended each evening at the
Auditorium. First evening was Ralph Bingham a
humorist; good but not to laugh. The next Evening the
Strollers Quartette, thirty were fine. The Empire
Fri. evening was Switzerland Illuminated
magic lantern Slides + Scenes in Switzerland
they were beautiful + wonderful.

Sat. Evening Will & the Children
found. It was John Potts an
Entertainer. Sunday morning
Staid at home & went to the
Hillside Meeting in the
evening. Will had all the
Hymn sheets sent so
helpful. Last evening we
heard the Newsboy Band and
a Lecture by a Scientist what is
to be in 2000. This is Evening
Samoan dinner food & Samoan
music in front & the Newsboys
Band at the Auditorium
Westminster Chapel is Opened
out where there is Bands all
practicing there really all
big time. Finally he got
the ironing done & Freda
come fully. I was to have
go with reception at 6.30 in
the Grove. I met Will & the

pattern I must get to sewing. you can help
me plan Ebenth Clothes. I think seven really
a big task, may be not so big as I imagine it

Pyeng yang. Kora.
July 19. 1910.

My Dear Sister:

I am so sorry I have neglected to write. I addressed an envelope + intended to write while we were in Wonju but I could not get the time. The days pass so quickly + so many things crowd in that I do not get at my writing. Just now Will came in and said, "Let's take our writing and set chairs up in the sun + do it there." I guess that is just what we will have to do. Will has been coaxing to see Korea. Early morning until night, about all kinds of questions. Olin'le will tell you about our trip to Wonju. It is a walled city on the Yalu river 12½ hrs by train + boat. [illegible] There are two churches there, 2 boys schools and two academies. No foreign missionaries have ever lived there so we have a rest house there + the missionaries from Syen Chun have worked from there. They are a fine lot & Estelle will do. She is in Pyeng Yang to-day + we have a delightful chat. She is a superior class

Will & I both go to Toronto tomorrow. Rose & Superintendent must attend Bible Class and Evangelistic meetings. We held classes from nine to 12 & one hour in the P.M. & then the Christians went out preaching & distributing tracts. In the evening there were preaching services out of doors under a canvas when sometimes there went from 1500 to 2000 people present. During the 8 days about 12 gave their hearts and obtained a desire to believe. There were about 200 men who studied and 25 to 30 women & gave lessons from F. Flow and then we had a Conference on helpful topics as "The Control of the Family" "Family Prayer" Conduct in church, "Fruit Bearing" & we had two devotional meetings like our Methodist testimony meetings & always like them. They always bring a blessing & some soul is strengthened & helped. Oh! we had a grand good time. The first two meetings I spoke & we could speak so they understood us well & were so attentive. My theme was "Fellowship" which is the Knight of

time they did Lan. It was Esther's + Mary's very first ride on a train. We came home Monday. Have all my Curtains down + washing and ironing done just about all the carpets put away + all the woolen clothes + we are getting ready for our boat trip. We would go Saturday but we must be at the Sabbath School Sunday. Thursday, tomorrow there are Expenditures of the town for Esther's + Friday for the women. Sat. P.M. Have the Teachers class + Sunday next at the Sabbath School. Last Sunday they said there were 350 women + girls there. If I did not feel that it is very necessary for us to get away for a rest I could not leave, but the Elders will help + have very good trained women so the work will not be neglected. We are both very well and strong. Seem to be given strength for each day. "As thy days shall thy strength be" is verified to us each day. We get tired + need the rest. Last night today. "I have yet a few that have not made." We will buy +

I Thes and "Lord." The women had a Silver medal made for Miss Saunders & Express their appreciation & love. Miss Saunders came up on Thursday but was not able to walk much. She is very Thin. She has held 22 Bible Classes since last Fall. She is a splendid worker & loved & Lully for it & get a hold of women. The men Ackowledged that the women work up & her motto is a need of her working the men. While is due to Miss Saunders tireless efforts. We got to Preach the Gospel in some very exciting homes, It was a blessed week. We got up at 3 A.M. Came down the Yalu river about 14 mi. in a steam launch got to Sin Wiju for the 8 O'clock train & got home at 2 P.M. Kim had Canned the fruit while I was gone, they had the house all cleaned & ice water for us to drink which was due most acceptable just at that time. While in Wiju We had ice Cream, fresh Cow milk & very thing we could desire, Those good people of us over 20 chickens & Ducks, not from how many eggs & rice & two Chinese Cakes which made nice presents to our Servants. The chickens & eggs we had to give away there. The children were well cared for in Syen Chun. What a happy

got hailed next 3 Monday. Have a bathing suit Irene left for Ella to wash. I saw Rose to Stroh's but she had left. Lena is small. Ruth will be as big & fat as Aunt Louise. Will is quite lively his hair is getting rather white. Irene is still streaked milk white. Is on iron mouth. Smith to-day. I may be blue, but I don't feel it. I suit Ruth Irene always if my hair is white. My! Smith Steele could be here to-day up here with us she does enjoy it so, the children are all surprised every day we start. Wilbur has just finished [illegible] secured for our food. Must get very thing ready long before it is time to use that Fred, part of the last. Our Sangels are wonderful that is a real Comfort. Kiss Will so with us for the Cooking & the boy Clang. Will stay to take care of the fruit & watch the flies. Rose Roman & Susie the School girl Dan going to have them do house & house visiting in our Church together. Susie is about 32 yrs old. I am trying for in school & training her for a Bible woman. She is one of the nicest young women. So quiet & kind. If you will send me a pattern for braiding address the White braid

I will have her braid you a Korean linen dress + trim it when I come next Spring She can do it very fast while she is in School. She studies + works 3 hrs a day for her board. She can embroidery nice but I have sent to Mrs Reed for some Embroidery Cotton + will have her embroidery a dress for each of the little girls. I am so anxious to get a letter from Orville. Mr Hamm had a letter for almost a month and it seemed like ages. I can't think that she hasn't written for she has been so faithful to write that way. I always write once a week to her. Christ. She will be a blessing to us and to a Brother. I trust he is to be a good Seventh girl. I am so anxious to hear what you say about her, how she is doing etc. Well I must close for there are a lot of Cherries + Raspberries to look after this P.M. We will have all kinds of fruit, and Peaches + Apples. Lots + lots of love

My Dear Sister E.

This is Monday evening. We are all here except Will he has gone to the young peoples meeting. Hyle is studying to go to Fall Creek Conf. but I find a little leisure time & will write a few lines to you. I don't expect to go to do [illegible] Mrs. Rader is not here this evening as she is attending the meeting but I find [illegible] to do both. Sheila & Wilbur are busy all the time with their lessons, & I am practicing some in the [illegible] Gertrude does not have as much lessons. This P.M. Hyle & I washed the windows. I used the

Thursday a woman is coming to bring Clarence the house and then I will let it go until the fall cleaning. You must have misunderstood for there is a gas Cook Stove in the kitchen & wood with gas. The house is heated by steam from a power house. & lighted with Electric lights. It is a convenient little Cottage and what more is there to want & require. There are seven rooms & the small reception hall & two rooms in the basement. I think we will be quite Comfortable here during the winter. I feel we did not make a mistake in coming. Frank brings & receives the mail. Love to everyone

and that rest. Hope you can come soon,
and stay as long as you can, dear if you
wait for Will to take with you you can't
stay half long enough. I shall make you
"one of the family" I really
believe you will like our little Lloyd

My Dear Jennie:
Your letter of the 16.
came today. We were all
ready for your last coming
Will & the little girls
went down with de Hoff.
Verity & Boyd. The Bethels.
We thought you were
detained & would come today.
We shall expect you
Tuesday at 5:28.

bring that waist it is at
Russels and your
Kimona must be altered.
The Comfortable Circle

and Skirt Pattern are here. If
Pessal Parcel send the Maple Syrup
Yet I wish you would bring it. Am
sorry to trouble you if you have had
Room in the box you could have it packed
& it would not be so long coming. Our
boys have just one week getting here
The Fairies Cookery Parcel Come yet
Will you please Telephone to Pessal to
send it at once. I have written him
but not received yet
you need not mind to bring the Comfort-

I am sure I can get along without it. Esther's coal will not be needed until Cold weather but if it won't trouble you too much you may bring it.

I want a potato masher like your own, will you bring me one?

Jamie was sorry about the dress pattern & Mr. Hall took it an looked in my trunk, trunnet and all things. My pattern and it is not here. I feel sure it is among your patterns, may be in the basket in the hall room. Feel sure it is not in any of my trunks for I have not seen

come across it at any time while I was
packing. I have hunted for it several times
and intend to send it back but it
slipped my mind every time. If you can find
it I will send the money for it but of
course that won't help Mrs. Ash to rel-
ieve the pattern. I have
looked every where I can think but I
will look again tomorrow. I have done
a big washing today. Gertrude helped me,
+ Nellie + Pearl came this P.M.
We will finish in the morning. I am just
beginning to have time to do all my work.
We have very able girl to get a woman to
help clean the house. Agnes Dale has to-

do it. - I had one applicant - but the only job milling & sweep & dust and wanted $1.25 a day. - I think when the fire is over Cosher comes I can manage much better & can attend some of the - Both classes. Hope to go to Norfolk in March & get some kind of a Sewing machine. I find the - dealing a machine is out of the question. They charge one dollar a week for rent. I am going to try to be ready to sew by the first of the - week. All love one word as I must go to - Phone Gladys to see about the pattern as I may make good by - Mrs. Asbury to.

Lots of love & kisses

P.S.
Sure ask Essie to come
I will send her a card to-
day. I rote to them a few
days ago.
Ida is at Junior's.
I am ready to clean
the house and it is only
five o'clock.

My Dear Sister

I want to thank you many time for all your kindness. Olivette's hair is so pretty. My pal thinks it—helped it very much. We got all our things fixed. The room looks nice. Your yoke & sleeves is like a new

dress and is very pretty - I've got a shade of red to match with the brown & put on the little with medalions & french knots & covered the buttons with the red goods. My but I've been busy last week mending, sewing, washing and ironing, but I've got all through Sat. night Colette came and she helped us in the evening. What a dear girl she is. She left this A.M. at 8:15 and Odette left at 11:6 Will meet with Odette & Ford Wayne & Fri with her then with she sails. At Lapeer Junction Abbie Filth will meet her & they will go together from there. Needless to say I shall miss the children. It is so hard to get along with out them but I must continued I've have decided for

the best for them. Wilbur passed in every thing except the Metric System which he had never studied. He was conditioned on that so he can take that up. Orville had a splendid review in Latin so that she will get along alright. Wilbur's domestic work is on the farm. It is so good he can be out of doors this time. He works in Oxford Hall with Carlton, & Shepard is there too. As for Clarence Orville & Reynold

My Dear Frances:

I only have time for a note. I've been canning & making peach butter all day. Sat. & Lady canned half bushel of peaches & I alone. 7 containers. Received a cake case & three. We caught 2 each for 25 cts. a bee. Just had pickle at Park. Is trying & Jamming & get Ruth & Ethel, Pearl & Bess. That will be a laugh. Am trying peach & Pears to show the Chautauqua. Arranged pick a Number in the Cellar & got more butter & pickles. Mrs. Bebb said we could get peaches from Pearl & Ethel at the Park & me & pick them. Do not tell Bill & Hazel. Judge he can go. I had such a time to get in touch, was substituted at Dr. Hill's. Mother to Rose Pearl & I to Presbyterian Meeting on Sunday and Rose fell screaming head Mr. Marquis lecture at the tent around the World Finding Missionary at M. E. Church Wednesday P.M. Morning Prayer & the Romance of Record Meetings. & Night out & Dr. Jurgens for Lunch. How nice & kind they are. I left a hi

3:15 train. Mr. Turner will help me find a place for it. He said he could not sell coal in it himself but there are lots of places where he can find sale for it.
This made Frank take a load of it & get it ready to send. I find doing every thing myself goes very slowly getting things done. I can't say how much I do miss Mr Nilsen, the children here have so little to play & few meals each so they can wash the dishes. At last I have the promise of a woman one day a week $1.25 for 8 hr. work & give her the noon meal. I shall try to get Frank & Carl to work also. It makes me too tired to cook so. I have on the track of a woman to sew. She is poor at Bed to and they like her so much I would make money. Sell a dress & take it & go & stay on for a few days. I will probably not go until about Feb. 15.

My Dear Sister:

The children have just gone to school. Mazie she dishes Rachael & she work about all done before they went so I am going to sit down by the radiator and get warm & write to you. The heat has turned on last night & we can have it as hot or cold as we like and although the house even the basement is heated from the long pipes, for the whole season it will only cost a little over $20 which seems reasonable when compared with the cost of the stove. Saturday after noon I helped the children, Mrs. Ballou neighbor, & Israel putting away coal in the south side of the Park. Mazie got out last to me. I helped walnuts a very few hickory nuts. Well! the trip just about finished me, I have just about two days laid up since, and leaving me very tired and nervous spells, so I am going to take things moderate today. Will left Sat. morning at 5:55 for East Liverpool, Ohio to speak

yesterday in Rev. McMillen's church, he was a friend in the Seminary. From there he goes to Newark, N.J. & is to work in N.J. & New York State these two months. I feared when I came to N.Y. I was but I presume the Lord is next week or the first & the next. Miss Story writes that she is coming. We have three more teams to plow about - going & am getting the children's clothes in order this week. The woman comes tomorrow to wash and clean for me & I hope to have her each week one day as long as she will work. The schools have all begun, there are about 100 hundred in the College 60 in the Academy and 75 young men in the Agricultural College. The Sabbath-school has been organized and the Federated Church has called a pastor who comes this week to begin his work for nine months. We have a Bible Study class once a week and a Missions Study class once a month and the Federated Club once a month in after all

Winona is 2nd grade. Is doing finely
Clare during the winter.
The Public schools seem to be
very good. The 1st month has
passed & the children seem to
have done very well. I think
Mary would be called a shoulder
shoulder pathers. Not late.
I think Prof. King is proud of
Gertrude in the music. She
seems to be doing very well.
In Milton's last letter he
said he had been promoted.
from farm work to the office.
He passed all his examinations
and seems to have a good start.
Ohrelli says she has never
been as happy in her school as
she is this year. She helps to
cook one meal & then she
is making rolls. I tell her
she will be ready to cook
for me next Christmas.

The other day I saw the lady who owns this cottage. I find we shall not be able to keep it during the Assembly. The rent is too high $1.50 per day for 2 months. So we will rent a summer cottage which is much less in price.
I am planning to leave here about November first & spend one night & day in Ada and then come to Lima & visit as much as I will have time & then go to Penn. Meeting will in Stamford, Conn. Nov. 17. Then on to Northfield and then back home here for the winter. Now that is the plan I have been thinking about will let you know later how it is turning out. Miss Schorg has promised to stay for two months. And she will take good care of the children and we have such good neighbors. Mrs. Bebb & Mrs. Breckenridge will help her out at any time I am sure. I just now am keeping well.
Lovingly Sallie.

LETTER

FROM W. L. SWALLEN OF KOREA FROM THE HOLY LAND.

Jerusalem, April 8, 1911.

Editor Johnstown Independent.

Dear Sir: As the mountains are round about Jerusalem, so the Lord is round about His people, and "They that trust in the Lord shall be as Mount Zion." Jerusalem, "beautiful for situation!" It is spread out before us. Magnificent city! It is the city set on a hill. No one familiar with its history could be otherwise than filled with emotion as he looks out upon the holy city. It is not its lofty site nor the magnificence of its architecture. It is not the bazaars nor the multitude of people that interest most the intelligent visitor to [illegible]. It is the [illegible] story she tells that holds the tourist spellbound as he stands upon the Mount of Olives and looks down upon that city of cities, that most wonderful city. It is there where you may weep with Christ and it is there where you may be confronted with the same spirit. Luke 19:41-44 and also Luke 13:34-35.

Jerusalem

Jerusalem is situated on a high platform of limestone near the central part of the Palestinian Mountain range. It is about 3[illegible] miles from the sea and 20 miles from the Jordan River as the bird flies. Jerusalem is 2,500 ft. above the level of the Mediterranean Sea and 3,800 ft. above the Dead Sea. From Mount [illegible] we can look down upon both seas.

We get the grandest view of the Holy City from the Mount of Olives looking westward. [illegible] the Temple [illegible] area [illegible] the dome of the rock and the mosque of [illegible] stands the tower of Antonia [illegible] large enough to hold [illegible] An interesting fact [illegible] quite large [illegible] connected with the temple [illegible] Temple Area [illegible] wall [illegible] Golden Gate [illegible] entered the city for the last time [illegible] tomb of [illegible] sharp pointed minarettes [illegible] churches [illegible]

In the west and a little south of the Temple Area is Mount Zion now marked [illegible] Church [illegible] tower [illegible] a fine [illegible]. On this hill [illegible] of David and is the supposed [illegible] Caiaphas [illegible] Christ [illegible]. Here also pointed out to us [illegible] upper room where [illegible] the last supper with [illegible] and places in some mysterious way [illegible] have taken place [illegible] under one roof. Many so called chapels are [illegible] and [illegible] Christ [illegible]

the [illegible] of [illegible] large [illegible] One of the most interesting [illegible] is the fact that here [illegible] come together for [illegible] in the Holy Sepulchre, Roman and Greek Catholics, Armenian, Copts and others. One of the Turkish soldiers is ever standing guard to keep peace [illegible] worshipers get to fighting. The tension is always greatest at the Easter Season. We were glad that we could see the place before Easter.

Solomon's quarries are just north of the Temple Area along the present north wall of the city. These are deep large caverns where Solomon quarried stone for his huge building projects.

A little north of the Golden Gate is to be found what remains of the pool of Bethesda. An attempt is being made to excavate and reopen the pool. Much rubbish has covered over the pool at present. We went down a stone stairway about 40 ft. and there we could see the pool, a clear sheet of water perhaps 20 by 4[illegible] feet in area, and quite deep.

There are eight gates to the city but the two main ones are the Damascus gate on the north and the Jaffa gate on the west. Outside the Damascus Gate is what is known as the Gordon's Tomb, so named because Gen. Gordon first called the attention of the public to this place as the place where Christ was crucified and buried. The evidences are too long to write but they are to my mind and to most Biblical scholars conclusive that it is there and not at the Holy Sepulchre where Christ was crucified and buried. The hill [illegible] and the tomb [illegible] can be clearly seen. The tomb shows clear evidence [illegible] not quite finished.

On the east and south of the city are two deep ravines called respectively the valley of Kedron and the valley of Hinnom. The former runs in a southward direction east of the city. The northern part of this valley is called Kedron, the southern part Jehoshaphat. The valley of Hinnom runs in a southeasterly direction, joining into the valley of Jehoshaphat southeast of the city.

And now as we drop our eyes downward to the foot of the Mt. of Olives we may see the Garden of Gethsemane. Here is a small garden of flowers and very old olive trees, which the Roman Church has marked for the spot where He [illegible]. The Greek Church have a garden just above this. We may never know the exact spot [illegible] near the northern end of the garden [illegible]. The most of the west slope of the mount is [illegible] covered with tomb stones. On top are Greek and Roman Catholic [illegible] and each have a stone from which they say Christ ascended. We care not for these for we cannot know the spot. But we do know it was from the Mount He ascended and from it was witnessed to that He would come again. "Come Again." That is our [illegible] Acts 1:11.

LETTER

FROM W. L. SWALLEN OF KOREA FROM THE HOLY LAND.

Jerusalem, April 4, 1911

Editor Johnstown Independent

Dear Sir In response to a request from Hon Wm A Ashbrook, for a letter from Palestine I shall endeavor to give you an outline of our trip and what we have seen

Jaffa.

We arrived at Jaffa April 3rd and had to wait just twenty four hours in quarentine before we were allowed to leave the steamer In the meantime we could enjoy the beautiful view of Jaffa from the boat and spend as much time as we liked in the study of human nature We had the full mixture of it on our steamer which was loaded down with pilgrims on their way to Jerusalem. After paying our quarentine penalty of thirty-five cents each with the receipts in our pockets we were ready to disembark A half dozen tourist companies agents with their coolies were crowding about our steamer in their respective rowboats waiting for the signal At 1 p m the whistle blew and in three seconds the coolies were scrambling over one another, up the gangway and up the side of the ship like mad each rushing for passengers and baggage The first and second class passengers were landed first, then the pilgrims Fortunately we had a quiet sea for the rocky shore here makes landing very dangerous When the sea is high landing is impossible and tourists must go on to Beirut We met several large parties who had to go to Beirut to land

Jaffa is the port of the ancient Solomon's time. Here he received in rafts the cedars of Lebanon which King Hiram sent for the temple and palaces in Jerusalem. So also for the second temple under Zerubbabel And here Jonah took ship when he tried to run away from duty

We are reminded of the ancient myth, how that here Andromeda was chained to the rocks that she might be devoured and was released by Perseus. Here is still to be found what is called the house of Simon the tanner. It has been many times repaired but the stairway up the outside wall, they maintain, is the original one by which Peter reached the top of the house where he received that wonderful vision described in Acts X Here is also the tomb of Tabitha

Jaffa lay in the highway of the armies and was destroyed and rebuilt many times Today it is a neat little city of about 45000 inhabitants. In front of it is the great Mediterranean [illegible] of the rich orange [illegible] field.

From Jaffa to Jerusalem.

[illegible] a narrow gague railway from Jaffa to Jerusalem. Every mile of the way is Historic ground of the highest interest Here is the Plain of Sharon This is a most beautiful and rich plain extending from the sea to the mountains of Samaria and Judah and from Mt. Carmel to the desert The land has been much neglected but there are now Jewish settlements and other companies who are doing much to improve it. It is a garden spot and the Jaffa oranges are the best I have ever eaten. They are said to be the best in the world

We pass close by the village of ancient Beth-Dagon, and soon arrive at the station of Lydda, where Peter healed Aeneas Acts 9:32 A little further [illegible] and Ramleh, supposed to be the site of Aramathea where Joseph of Arimathea gave his own new tomb in which to bury Jesus.

From this station we soon come to many interesting places. That on the right of the road is a Jewish Colony on the ancient site of Ekron. The last place at which the Ark of Israel halted while in the land of Philistia. It was at this place that the lords of the Philistians gathered together and after consultation decided to return the ark with presents. 1 S. chs 5 6

On the left side of the road we see a high mound or hill called Gezer This was a city of Canaan one which Pharaoh took and killed the inhabitants and gave the place as a dowry to his daughter the wife of Solomon Who rebuilt it and embellished it as Solomon so well knew how to do The Palestine exploration society have found clear traces of their excavations We next pass up the valley of Sorek famous for the strange history of Samson The hill is pointed out where he is supposed to have lived We see on our right the ancient Beth Shemesh, where the lowing cows brought in the Ark which was sent back by the Philistians 1 Sam 6 14

We next creep up the wild rocky gorge where a cave is pointed out to us, as the cave of Samson and a level rock which is called the Rock Etam where Samson killed a thousand Philistians with the jaw bone of an ass, this "jaw bone" by the way is not supposed to be a real ass' jaw bone but a club in the form of the jaw bone of an ass Such a club was found among the ruins at Gezar It was a weapon for defense and one which a man like Samson could wield with terrible effect As we near the top of the mountains southwest of Jerusalem we come to the station of Bitter—Ancient Bethar. This is the place where the Jews under their false Messiah Barcochebas took their last stand against the Romans during the reign of Hadrian A D 134 and then on through the plain of Rephaim where the Philistians took their last strong stand against David, but were defeated 2 Sam 5 18 25 And now Jerusalem breaks in upon our view The Holy City The one spot on earth to which more than any other, the eyes of the world are turned Here Jew and Christian, Mohammedan and Heathen alike are drawn with a strange fascination unaccountable save in the fact that here is where God revealed Himself in human flesh in the person of Jesus Christ, our Savior

My Dear Jennie:

I had intended to write before this but really I hardly had scarcely a moment & when I did it left me busy writing to my scattered family. This morning I had four letters to write & to read when all your letter came first before I left Diamond Lake. I left at four o'clock P.M. Oct 11. went direct to Dubuque & had been on the go

zine. At Des Moines I had the pleasure and surprise of meeting James Ogilvie George's brother, he & his wife were there visiting their daughter Mrs. Magill Her husband is pastor of the First Presbyterian Church there. Had a visit with him. He looks so much like George. Last week I was at Burlington Iowa attending the Synodical Meeting

My Dear Jennie:

I think I will be home when I was in Fairfield I count on it. Down to Rock Island, Central to Chicago Friday, Mrs. Crevell of Winnetka Ill. telegraphed home to come there to Thursday - then Fri. P. M. and Central home Sat. morning, My coming this was a surprise for they thought I was coming Monday. They left Ind + got on my will while I was gone Mrs Fishers was really

beyond to them I guess and they let her do most of the work but I think they will do better when I go again. I found a lot of letters to read and answer, & had to make my plans for the trip East. I was sorry not to go to Columbus and on to see you all but I could not get it in this time. I am just wondering when I am to get the time before I go back any way & feel sure there will be a time when I can come.

I am planned to go to Ada Sat. coming from there to Brookville spend two days in Pittsburgh, then to Irwin & see the Fisher family about Nov. 12. then to Dixie & on to Newark, N. J. to visit Ella during then a day in N. Y. with Mrs. Powell, Meeting until Nov. 17. At Stamford, from there to go to Smithfield & I must be back here by Nov. 27. & I think I could come then for a little while.

Miss Emory Carol stay any longer She thinks I am truly thankful she can be here that time.

and that I have been and am able to take
this trip away for a little. I have not
quite well since I came home but I will
be all right in a few days I hope. I
have got the Childrens clothes in order
before I leave. The wash is all done &
dry so we can iron tomorrow. The
women does the wash & cleans the
rug. & floors all down stairs so our
work is not so much as when you were
here. When I come home I will have a lot
of sewing to do in Dec. but I think I
can get a woman who is very good to

suits me at 3 that time.
Our house is going to be very comfortable I think so easily heated.
This is Mary's Eighth birthday. She invited two little boys, Willie, for dinner today so we had a real nice dinner + Mary is very happy.
Will is in New York State now. He has been in New Jersey

and Penn. Attended
a Laymen's meeting where
2 or 3 hundred men were present
at a banquet in
Lancaster, Penn.
I am sure glad to hear that
you are well and you are well
Had a letter from Ray. She
is not very well she said.
I must close for I have da-
dusted a lot.

My Dear Frank:

We are just now ready to start for Northfield. Will come Fri. and go there Sat. A.M. We have had a lovely time, Last evening the Church gave a reception in our honor and it was inspiring to meet so many Earnest Christian people. I had such a pleasant visit with the Fisher family, in Josie's home and also Ella's. Anna & Josie both send their love to you. Ella & Josie asked to be

remembered by you. She has three daughters Joyce is 20 has been teaching for three years Eva is Sydney Graduating from the Keyboard Normal next June & Helen is Seven. Josie looks just the same. says she is as young as ever and it is lovely to see her young with her girls. Father Fisher is 83, is very feeble, and not at all well

I spent one night with
Mrs. Geo. Heber Jones in
New York, What a good
Visit I did have.
We go on to Northfield this
afternoon expect to arrive
there about 4 this P.M.
In haste Much love
father Mother Sister
Lyle Lael I will go down
to Provo and Will
Will go to Alliance to
make his last Visit
With his relatives and
the many

Liking to see you all
in Dec. probably about
the middle. If he does
go there I fear he would
get there at all to
[illegible] leave, for he
will probably be leaving
for Korea in Feb. or March.
Phone expense today I
have taken just a few

My Dear Jennie:

Your letter received this morning, was so glad to hear from you. I came home last evening, Will & Jeanne to Alliance Sat. P.M. & stayed over Sunday. Left yesterday morning at 9:40 & got home at 3:25. a long ride. Will stayed for a visit with his relatives, will be the last one I suppose for he expects to graduate in Feb. & then we talked and tried to plan for him to make a visit among you all but he could not come any

Conclusion about it. It will take the most of the month by the time he gets all around and I wondered if we might meet Either at Johnstown or Sunbury but I did not know about the Children's Vacation & whether we could come or not. you had mentioned in your other letter & again in your letter today about our coming for which I thanks you many times for the kind invitation. I know it will make so much work for you & you must have you self & you dont have a girl So I felt we had better not plan for. Come any way since the Vacation is so short. School closes Dec. 22 & begins Jan. 2

Hannah - 2 heard from
any of the family Expect -
Tell and dont know if
it would be convenient for
them to come and visit
them. We I think I
will write. Will wait
Effie and if he can,
may be he can go
about it it wont be so
much for him to be there
and go about to see each
one in a few days and
it will save you all the

dont know but I think I
will plan to come the
last of April or first of
May when the school
closes and make a visit
all around if it will be
convenient for us to -

Come at what time we have never decided yet but I think we will stay here all summer until we leave for Kona at the close of the Summer vacation. From tonight we may not be able to keep this Cottage. Mrs. Hitchcock charges such a high rent for July & August $150 per month for two months. I think we will have to get another house, we will have to see about it later. The children are reported to be doing very well in school & Gertrude improving so much in music. They all kept so well while Inez was away. Miss Schwartz said they ate like wood choppers. She is a good cook & did so nicely keeping house. She is leaving tomorrow for Canton. It is certainly a kind of her to come & made it possible for me to be away for six weeks.

wish I could tell you all about my trip. It was so pleasant from beginning to end. We did so enjoy the three days at Northfield & Mt Hermon and feel we have made no mistake in sending the children there, We got here Tuesday afternoon Wilbur came to Northfield & took supper with us & then we went to Moline & spent sometime with Olivette Wednesday we spent all day at Northfield with Olivette in class visiting all the buildings. Wednesday evening was prayer meeting for which Hall was to have asked me give the girls a talk which

I was glad to do, We must have come Early so Orville could study. Thursday morning Will spoke to the Girls in Chapel a beautiful sight to see 460 young women seated together + walked out. We hired a Carriage and drove out to Mt. Hermon Thursday forenoon intime to go to Class with Wilbur and to attend Chapel at 12 O'clock. Then we went with him to dinner. Four five hundred young men with a Score or more of teachers eat in one large dining hall. After dinner we went to his + Gordon's room saw their Class + put their room in order, which they do right after

dinner & get it ready for inspection. We met with Wilbur & his Latin and Algebra classes. Then I took an invoice of his clothing & found what he has & then we three drove back to Northfield. We had invited all the "Korean" children to take dinner with us at the boarding house. There were eleven of us for dinner, and a nice dinner Miss Vining had. And I got the after-dinner mints and also a treat of candy for all the girls & boys to take to their rooms. After dinner we sang Korean & English songs

had refreshing of Psalms, prayer & it was time for the Children boys for we had promised to have the quiet hour for the study hour at 7.15. The next morning we must wish Olivette again to thank the maid & her class & the maid to pack & get ready for we were to leave at 2 P.M. After dinner she came to say good bye & we took the back for the station. Will not attempt to tell the children again how he leans for Jesus & not to see them again until their education is finished. Grace sufficient is always given at all times. We came by the way of Buffalo

and Cleveland to Alliance,
Spent Sunday with Ethel
took dinner with the
Heidman family. Mrs. Heid-
-man was Lizzie Fisher
Professor's second sister.
Enjoyed seeing & have a visit
with all the Fisher family
except Henry & Will.
Henry has a large family &
lives at Clearfield. Will
is married & lives in
Pittsburgh. I did not
have his address so I
did not get to see him.
I can see work piled up
since I have come home
& I must get at it.
To day I have spent getting
the mess cleaned & am

parking it to send away. Will
send not of it to Stamford Conn.
Some to Pittsburgh & a little to
Chicago. So I guess I wont have to
trouble Mr. Turner with any of it.
He was very kind indeed to offer to help me
out. It is late & my letter is too long
already so I must close.

P.S. Saw Will's
picture in one of Phil's
papers & read of his work
in the Leeds Case. They said, "Will Ashcroft
stands for what is right" which always pays
don't it?

My Dear Jennie!

I was so glad to hear from you and it makes me want more than ever to come for Christmas, but after going over the whole situation several more times, I think we had not better undertake it. The children only have two days vacation and the expense is too much for such a short time and such a cold hard time to get around & because people such a lot of trouble. I think you will agree with me that we had better wait &

Come when he can stay
longer & can get around
better. I think Mary
would be far better. I
want to visit Carl & Flora
again & call to see the
Cousins if I can.
Will Will Fay left & if
Wilbur is here he can

thankful they are there
and not here in school.
They are very happy in the

school & work. and I was so glad to hear the many good remarks & compliments about both of the children and Miss Fairen the head teacher in Boston seems such a fine lady with such a loyal christian spirit; she said "we will tenderly mother the girls" What a happy Thanksgiving they had I was so kind of you to send them some candy, many thanks and also for remembering our children here. I am glad you didn't send the turkey.
Mrs. Bebb invited us there for Thanksgiving dinner and what a lovely dinner she did have. We had such a quiet nice day just

I am getting acquainted with the ladies in the Park Night before last I attended a Luther dinner by the two Adult Sunday School classes of the Salt Lake school here. It was a very pleasant affair. A Chinese and I gave the talks of the evening. A bright Chinese student in the Agricultural College. This evening after supper making is the Bible study class + then in turn a Home Mission + Foreign Mission study classes so there are plenty to go to. I must begin & sew right away

I can get a dress from Warsaw by the day which thinks I will do. Many things about the Cattle I will be so glad to get them. I think his shade of green for many + his shade for Esther will be nice to go with their coats. I am writing to ask Mother what colors the boots. I think with brown dress and a bow on the side looks nice. I will send the money as soon as you let me know how much it is.

Yesterday I got Will a new Mackinaw shirt + a flannel shirt from Paris. Am mailing it to-

My Dear Jennie:

We have been very busy getting packages ready. Will mailed them this P.M. So I only have a few more things to get ready. I am so glad I did not plan to go to Licking Co at this time for I am feeling miserable and have been for over a week & I am not better by running & shall see a doctor. I think it is Malaria. It is all symptoms of it. I was glad Will came home & helped me get the-

things ready. It was a pleasure and I was glad he could share it. To day he remarked that you were going to send us a barrel. I can imagine what work that means and I just hope if you have not begun it that you wont undertake it. Now I dont want to dictate but I insist you wont do it. May I suggest if you have not begun it that we would rather have the cost of the things & freight in money to put in the Victrola we hope to buy

then we can not eat it up + we will have it for our pleasure + the pleasure for years to come. We have about twenty dollars on the fund here and hope by the time we go back to have enough. I had to excuse me for even mentioning it but I don't want you to stand on your feet + kill yourself all out for us. This evening when I read about the banquet at Stanton I can imagine how tired out you are this evening. and how much

you need the rest.

Will has written. I want to write a note to thank you for that beautiful silk waist and to thank you for all the goodies which we are enjoying day by day. At noon time we help ourselves to food on the table. Come out of that barrel. Sunday we had one chicken stuffed & cooked in the fireless cooker while we were at church & we finished it yesterday & today we had the most delicious soup made out of the bones. Tomorrow

My Dear Lemuel:

Your letter of the 26. Came today and so did the box. Ardis must be made to mend many times for all of your kindness. The children are delighted with their Christmas treat. My dear wife, too, has had many nice things. I was at Mayer's meeting or Bible study class. I trust you will think for a moment that I did not read the things to do not overcide them. Tony

and will last us a long long time. I intend to
fill all my empty cans with the apples as they
begin to rot & make apple butter. I will return
all your cans & will have some to add to them
for I put up grapes & quinces. We had
fried chicken Friday & it was fine

I am able to make four or five meals out of it. If we use much coal today we will not have it. It is cold they said today & certainly they would have been frozen to night — What a lot of nuts, to write such. I am sure there is so many different ways. Will Hale to send us in in a few days. My Dear Olivette.

I find it is harder to write when Travelling than when at home. When on Ship I just feel too good for nothing & think of it. You know what a Sailor I am. Feel nonsense nearly all the time. When on land then we have to be on the go to do all that is to be seen. So you will be encouraged tho we have not written often. We had a splendid time on India & with the exception of one, and Wilbur took an extra trip with 3 rare Missionary ladies to Delhi and Agra. Where he saw much and had a pleasant time. India is too hot to be pleasant. I don't know whether I ever replied to your question last fall about one of your girls a miss Mattocks, well she is the daughter of Rev. Mattocks whom I Know quite well & was in our. He was in Seoul when I was & met his sister Miss Bland. Visited with them when in India. We leave Tomorrow at Suez and go down to Cairo. Hope to get on to Jerusalem as quick as possible. I hope to find letters there for me. I feel sure you will have one there for me.

We are going to start home a bit earlier than we first intended. We hope to arrive in New York about June 6th. My further plans will be made when I get there, am not sure that we can go to Northfield this will if possible.

Most lovingly I commend you to Him who is able to make all grace abound & keep you in His Love.

May 7-1911.

My Dear Sallie and children

We received yours of April 16th and right glad we were. Happy to think that we are in communicating distance again. We are in fine shape. Eating like wood-choppers and working hard to see as much as possible of the many that are to see, but is not easy always to select what to visit. We have fallen in with nice companions - a Mr. Davis from the Philippines, who like we have separated, he with his two boys 12 & 14 years old have come this way. While his wife with the two girls have gone direct to U.S.A. We met in the Port of Jaffa as we were leaving Palestine, and finding our course to London the same we have decided to travel together and in so doing making the trip more interesting and cheaper. Mr. Davis used to be in the Doshisha College in Japan - a Missionary - but now a Teacher in the Philippine Isl.

Thanks for your suggestion of visiting Alliance first. It will fit in with my plans nicely. I have written & find out about the time of the Worcester Commencement. Tho I do not know that I can get there. I sail from Southampton May 31st and will arrive in New York on or about June 6 or 7th. Then I will spend June 11th

at Stamford. I have no written. Then Olivette is expecting us. And as Commencement there will be on the 13th And then we shall all start for Alliance on the morning of the 14th or possibly ening of the 13th and arrive in Alliance on the 15th I should think. Now I wrote to Sister Sophy that I thought ajou would go to Alliance with the other children so as to get there ~~first~~ before we would. We can then make a short visit around only with our nearest friends, and we can do most if not all, of that by train. If we can not all sleep at Sophy's some of us can sleep out in another place. I told Sophy so, ajou suggestion to do that is just fine. I hope ajou will write Sophy, and get over a few days before we get there so you can have something of a visit: And now I must close we have having such a fine time. We just want to stay, a long time wherever we go. and yet we are getting awful anxious to get home, to our loved ones again. We have seen much here at Rome but not all. We leave tonight at 11:30, and will stop at Florence, Venice possibly a few hours at Milan, and THEN to Switzerland. To Lucerne, next Sunday at Interlocken, Thun, Bern, & down the Rhine, Cologne, Paris & London, God bless you all. Lovingly Will.

Interlaken May 16-1911.

My Dear Sallie and Children.

We have been sending you cards from the different places where we have been, But have not been able to attempt to write you very often. It is just rush all the time. The travel fare seems very small, but the money goes fast. The board bill each day is high. and the fare to the points of intrest is expensive, besides we always have to pay to see most every thing. Then we try to get some P. cards or pictures from the places we visit and a few nice large ones which will do to frame. We usually have the large ones tied up for mailing and mail them direct to you at Johnstown. So you will understand why they thus come, and that without a word from us. We have had a nice time here, and have visited the old home, & took good pictures of the old ~~hou~~ Ancestral houses. there are two. Still in good shape. Interlaken is full of the Swahlens, but they are of not much special interest. I found one young Hearty Swahlen exactly 5th Cousin to Wilbur and his father 4th cousin to me, and his grandfather 3rd Cousin to my father &c. The old man is 80. the Son about 50 or more the young man 25. This young ~~Swi~~ Hearty = (the Swishy for John) speaks english quite well and is quite interesting. They are a nice family & fairly well to do.

This young man is a waiter in a hotel, and his father is a coachman. He has his own horse and carriage and does well. We rode in his carriage to the hotel when we arrived and did not know it. The father and son took us out all day on Saturday - and we had a nice time. We took pictures of the old houses, and he took us inside all through their homes, so we could see how they live. We saw no sitting room but saw plush lounge in bed room and some very nice furniture. We have traced the line back to one Peter Swallen who had 4 sons. Peter, Henry, Jacob and John. and Henry with his two sons Henry and Christian (the later my father) and Anna. sailed for America about 1830. The young 5th Cousin here is from the line of Peter. There are many here but I have not tried to meet them as I cannot speak enough to make it interesting, and they seem to care so little for one another that it is 차가운 사람. I am satisfied to have seen the house. and been in it. and to have worshipped in the same old church in which my father's people were baptized and worshipped. It is a nice old-fashioned large church. but very cold. Yet they seemed reverent, and such beautiful epitaphs I could read them nearly all. I see no pale faced children here. all robust and hearty. and Wilbur is getting so too. I cannot keep up with him. I went out yes-

terday with him for a ride on bycicles. We rode about 5 miles out and back. Great sport for him but it made me pritty tired. We went to see the Beatus Cave. So called because here ~~the~~ find the monk Beatus lived for 110 yrs. They have an effigy of him with his open Bible in the cave just as he used to sit: A.D. 500. We walked for at least one mile in the cave - back & forth crossing and recrossing a rushing river which was interesting enough, but there were no pretty stalactites like in old Kasa Cave near P.C. We saw a few dirty looking ones which were in the form of one like a big head, - another like a snake, alligator, bear, Indian with a staff and one that just looked like Shakespear. or - - -

We went to Interlaken Sat. - fine. Sunday we went to the old Church. Yesterday to the Cave. & did shopping. intending to leave today. But this morning I felt Wilbur ought to get a better view of the Jungfrau, so Mr. Davis & his two boys, Wilbur & I visited Schneidegg the highest point that we can go by rail. Right up in the front of the three chief ones. Eiger, Monch & Jungfrau. I rode the rest walked. They thought it was great fun. I don't think I could do it; but I enjoyed the ride very much. Now we go townward to my mother's home, and Thursday to the Rhine. Friday down the Rhine to Cologne and Sat on to Paris! We hoped to get letters here but have gotten none. Hope they will be waiting us at Paris. We are well and getting on fine. I can speak enough German to get on O.K. Love to all. Things & kisses. Yours. Will

My dear Papa

I love you very much, Wilbur + Gertrude and mama are well, I send you a sugar kiss. I read my book every day & pray for [illegible] your Papa every day. I love Jesus and want to be a good girl your little Violette.
